PROFILE SUMMARY

Backend Developer with expertise in **Node.js, Express.js**, specializing in **modular, service-based architectures** for **scalable and high-performance applications**. Skilled in designing and implementing **RESTful APIs** for real-time solutions. Experienced in **Sequelize ORM** and **database optimization** with **MongoDB, MySQL**. Proficient in integrating **Stripe, Firebase, and AWS (EC2, RDS, S3)** to ensure security and scalability. Passionate about **backend security, test-driven development (TDD)**..

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+)
- **Tools:** Git, Linux, Docker ,AWS (EC2, RDS, S3),PM2, Nginx
- **Technologies:** Node.js, Express.js and RESTful APIs MySQL,MongoDB, Firebase Firestore
- **Testing Frameworks:** Jest, Postman.
- **Security & Authentication:** JWT, OAuth,Custom Tokens, Firebase Auth, API Rate Limiting.
- **Communication:** English, Urdu

PROFESSIONAL EXPERIENCE

Node.js Backend Developer / VEROKE

05/2025 — Present

Islamabad, Pakistan

- Developing **real-time, scalable applications** using **modular, microservices-based architecture** with **Sequelize ORM**.
- Implemented **Stripe and Tess payment gateways** with **webhooks** to support **one-time purchases** along with **role-based authorization** and **file upload solutions** integrated with **AWS S3** and **Azure Blob Storage**.
- Automated deployment and scaling on **AWS (EC2, RDS, S3)** and **Azure**, ensuring secure, fault-tolerant, and production-ready systems.

Node.js Backend Developer / CODE CRAFTERS

07/2024 — 05/2025

Islamabad, Pakistan

- Developed backend services using **Node.js** for mobile applications built with **Flutter**.
- Managed **real-time communication** using **Socket.IO** for seamless user interactions.
- Integrated and deployed applications on **Azure** and **Firebase**, ensuring secure and scalable solutions.
- Collaborated in the end-to-end deployment cycle, ensuring high availability and fault tolerance.

Node.js Backend Developer / FYP

11/2023 — 07/2024

Islamabad, Pakistan

- Developed a scalable bookstore application using **Node.js** for backend services and **Flutter** for the mobile frontend.
- Integrated **Firebase** for real-time database management, ensuring seamless data synchronization.
- Created an intelligent **chatbot feature** using machine learning to recommend books and assist customers.

Node.js Backend Developer / VEROKE

09/2023 — 10/2023

Islamabad, Pakistan

- Built a scalable job portal using **Node.js** with a **modular architecture**.
- Developed **RESTful APIs** for user authentication, job posting, and search functionalities.

KEY PROJECTS

Baked Bliss

- * Developed a bakery e-commerce app featuring **product listing**, **order management**, and **secure checkout**.
- * Integrated **Stripe** for payment processing, ensuring secure and seamless transactions.
- * Built **real-time user profile management** for personalized shopping experiences.
- * Utilized **Node.js** and **Firebase** for scalable backend and efficient data synchronization.

Study Buddy

- * Created a freelancing platform connecting students and teachers for project bidding and academic tasks.
- * Integrated **real-time chat** using **Socket.IO** for instant communication.
- * Designed **profile management systems** for seamless teacher-student interaction.
- * Implemented **Stripe** for payment processing and **Multer** for secure assignment uploads.

Book Enhancement Store

- * Developed a mobile and web bookstore app using **Node.js** and **Flutter**.
- * Integrated **Firebase** for real-time data handling and implemented a **chatbot** for book recommendations.
- * Streamlined backend architecture for efficient order processing and user management.

Rental Autos

- * Developed a car rental platform using **Node** with a **modular architecture**.
- * Implemented **PAYMENT GATEWAY (Stripe and Tess)** and **location-based services** for enhanced user experience.
- * Optimized backend performance by applying **asynchronous programming models**.

EDUCATION

Bachelor of Science in Information Technology <i>Bahria University Islamabad</i>	07/2024
FSc <i>P.O.L College</i>	05/2020
Matric Computer Science <i>Grammar Internation School</i>	04/2018
